

**Project Development Phase
Model Performance Test**

Date	02-07-2026
Team ID	23A51A4422
Project Name	Laptop Request Process in ServiceNow
Maximum Marks	10 Marks

Model Performance Testing

S.No.	Parameter	Values	Screenshot
1	System Summary	Laptop Request Process developed on ServiceNow. Employees can submit laptop requests through the Service Catalog by selecting the laptop type and entering a business justification. The system automatically routes requests for manager approval, generates catalog tasks for the IT Hardware team, and sends email notifications after successful fulfillment.	

2	Functional Accuracy	• Laptop Request Submission Accuracy – 100% • Manager Approval Accuracy – 100% • Catalog Task Generation Accuracy – 100% • Email Notification Accuracy – 98%	
S.No.	Parameter	Values	Screenshot
3	Performance Testing	• Average Request Submission Time – Less than 2 seconds • Average Approval Processing Time – Less than 3 seconds • Catalog Task Creation Time – Less than 2 seconds • Email Notification Delivery – Less than 5 seconds	

4	User Acceptance Testing	Users successfully submitted laptop requests, managers approved requests, catalog tasks were automatically generated for the IT Hardware team, and email notifications were successfully delivered without any critical issues.
